

Suddenly, Tomorrow Came.: A History of the Johnson Space Center

By National Aeronautics and Administration, Henry C Dethloff

Createspace, United States, 2014. Paperback. Book Condition: New. 254 x 178 mm. Language: English . Brand New Book ***** Print on Demand *****.This history of Johnson Space Center (JSC) is a detailed chronicle of the U.S. space program with emphasis on humans in space and on the ground. It realistically balances the role of the highly visible astronaut with the mammoth supporting team who provide the nuts, bolts, and gas to keep the train on the track. It recognizes the early political and technical geniuses who had the vision and ability to create NASA and JSC and keep them expanding at a rapid pace. The history of the Johnson Space Center focuses on an unusual slice of time and human affairs. It has been a time of great changes, the full impacts of which is not yet evident. American history and that of humankind has been irrevocably affected by spaceflight. Space has generated new technology, new materials, and a new process of thought about the Earth and the human potential. This book has a beginning and an end, but the story continues, perhaps through all time. Suddenly, a new tomorrow has come into being. In 1902 H.G. Wells observed that...
