ILLUSTRATED LONDON NEWS, September 27th, 1884. says, -- The Ammoniaphone is an ingenious instrument, invented by Dr. Carter Moffat, for voice cultivation. By close observation and careful analysis of the purest air of Italy, Dr. Moffat has succeeded in obtaining a chemical combination of the constituents thereof, many years having been bestowed by him in the realisation of his purpose. This seems now to have been effectually done so as to place within easy reach, a means of improving the quality and the sustaining power of the vocal organs, whether used in singing or...
