Brand New Book ***** Print on Demand *****.Our life creates a series of echoes - so too the lives of those around us. The physical world, as well as the conceptual, all produce echoes that resonate with thought and emotion. This collection of poetry represents the reflections and reactions to these echoes that one writer has so far faced, encapsulating themes of childhood, oppression and freedom, dreams, and the heavy beats and breaks of love. These poems represent creative responses to various imagery, whether found in art, photography, or film, along with personal thoughts that reflect upon the physical as well as the metaphorical world. While the voice captured by these poems expresses the echoes of one individual s life, the hope is that the reader may find within their forms the means for finding and understanding their own.
