RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 102 pages. OCLC Number: (OCoLC)319428073 Subject: Food -- Safety measures. Excerpt: . . . additional, comprehensive food safety legislation that became effective on January 1, 2006. Together with the earlier regulation establishing EFSA, the legislation was intended to create a single, transparent set of EU food safety rules applicable to both animal and nonanimal products. Since that time, individual EU countries have worked to bring their national food safety laws in line with EU requirements - a process referred to as harmonization. These selected countries also face the challenge of foodborne illness caused by known hazards as well as new threats. To address these challenges, the United States and other countries have undertaken certain measures to protect human health. These measures include the use of a science-based safety system for certain food products, known as Hazard Analysis and Critical Control Point (HACCP), and the requirement that exporting nations meet food safety standards similar to the importing countries own standards. A HACCP system is designed to improve the safety of food by having industry identify and control biological, chemical, and physical hazards in products before they enter...

Reviews

Extensive information for book fans. It is written in basic words and never hard to understand. It is extremely difficult to leave it before concluding, once you begin to read the book.

-- **Otis Wisoky**

This publication is great. It is full of wisdom and knowledge You will not really feel monotony at any time of the time (that's what catalogs are for relating to when you ask me).
